Patrick Milo, PhD(c), MBA, BSc., NPQSL (DfE London 2018)

1. WHO WE ARE

British Education Consultants (BEC) is an education transformation, training, inspection-readiness, and accreditation-focused organisation committed to strengthening schools, teachers, leaders, and education systems.

BEC works with schools, universities, ministries of education, and education stakeholders seeking to improve educational quality, strengthen institutional leadership, and align with internationally recognised standards.

The organisation provides structured frameworks, practical consultancy, professional development programmes, and quality assurance systems that support sustainable school improvement.

2. OUR MISSION

To strengthen schools and education systems through teacher development, institutional transformation, safeguarding awareness, quality assurance, and internationally aligned educational standards.

3. OUR VISION

To become a respected international education standards institution advancing educational excellence, school transformation, leadership development, and institutional accountability across emerging and global education systems.

4. OUR CORE VALUES

Educational Excellence

We believe every learner deserves access to high-quality teaching and effective school systems.

Integrity

We uphold honesty, professionalism, confidentiality, and fairness in all our work.

Accountability

We support transparent leadership, responsible governance, and evidence-based institutional improvement.

Safeguarding and Student Welfare

We believe safe learning environments are essential for student success.

Continuous Improvement

We promote reflective practice, ongoing development, and sustainable institutional growth.

Collaboration

We value partnerships with schools, universities, governments, and professional networks.

5. WHAT WE DO

BEC provides a range of education-focused services designed to improve schools and strengthen institutional systems.

These include:

- school transformation consultancy
- whole school CPD programmes
- teacher upskilling and conversion training
- leadership development
- inspection readiness audits

- school accreditation and recognition
 - safeguarding and child protection training
 - education policy advisory services
 - research and thought leadership publications
-

6. OUR PROFESSIONAL FRAMEWORKS

BEC operates through a structured ecosystem of proprietary frameworks.

BEC-GSQF

BEC Global School Quality Framework

The umbrella framework guiding school quality, institutional evaluation, and school improvement across leadership, teaching, curriculum, safeguarding, and sustainability.

BEC360™

Whole School Transformation Framework

BEC360™ supports institutional transformation by strengthening:

- leadership and governance
 - teaching and learning
 - curriculum implementation
 - safeguarding systems
 - infrastructure and learning environment
 - institutional sustainability
-

TMRA™

Teacher and Middle Leadership Recruitment Audit

TMRA™ supports the development of teachers and middle leaders through:

- competency diagnostics
- professional development
- instructional coaching
- curriculum training
- teacher conversion to international standards

BIRA™

BEC Inspection Readiness Audit

BIRA™ provides structured institutional audits that evaluate a school's readiness for inspection, accountability, and accreditation.

BEC Accreditation™

BEC Accreditation™ recognises schools that demonstrate strong educational standards and institutional performance.

Recognition categories may include:

- BEC Recognised School
 - BEC Accredited School
 - BEC Centre of Excellence
-

7. OUR KEY SERVICE AREAS

A. School Conversion to International Curriculum

BEC supports schools transitioning from local systems to internationally aligned curricula such as:

- British National Curriculum
- Cambridge International
- Pearson Edexcel

This process includes feasibility review, teacher preparation, curriculum alignment, leadership support, and inspection readiness.

B. Whole School CPD

BEC designs and delivers structured continuous professional development programmes that strengthen teaching quality, leadership practice, and school-wide improvement.

Training may cover:

- learner-centred teaching
- assessment for learning
- classroom management
- differentiation

- safeguarding
 - instructional leadership
-

C. Teacher Upskilling

BEC supports teachers transitioning from local teaching practice to internationally aligned instructional methods.

The programme focuses on:

- pedagogy
 - curriculum literacy
 - assessment
 - classroom management
 - safeguarding awareness
-

D. Inspection Readiness and Quality Assurance

Through BIRA™, BEC helps schools evaluate their current readiness for inspection and identify institutional improvement priorities.

E. Accreditation and Recognition

BEC provides institutional recognition to schools that meet defined quality standards through a structured evaluation and accreditation process.

F. Government and University Partnerships

BEC works with universities and ministries of education in areas such as:

- teacher upskilling
 - safeguarding policy development
 - school leadership training
 - quality assurance system development
-

8. OUR APPROACH

BEC's work is guided by a structured methodology that integrates diagnosis, planning, professional development, implementation, evaluation, and recognition.

Our approach can be summarised as:

Diagnose → Plan → Develop → Implement → Evaluate → Recognise → Improve

This ensures that educational improvement is not isolated or temporary, but systemic and sustainable.

9. WHO WE WORK WITH

BEC serves a wide range of education stakeholders, including:

- private schools
 - international schools
 - schools transitioning to international curricula
 - teacher training institutions
 - universities and faculties of education
 - ministries of education
 - school boards and proprietors
 - education investors and school founders
-

10. WHY PARTNER WITH BEC?

Schools and institutions choose BEC because of our:

Structured Frameworks

We provide clear systems rather than informal consultancy.

Practical Expertise

Our work is grounded in real school improvement practice.

International Focus

We support schools seeking alignment with recognised global standards.

Capacity Building Approach

We do not only evaluate institutions; we help them improve.

Strategic Perspective

We work with schools, universities, and governments at both institutional and system levels.

11. RESEARCH, POLICY, AND THOUGHT LEADERSHIP

BEC contributes to professional dialogue through:

- white papers
- policy proposals
- school transformation reports
- research publications
- professional handbooks and playbooks

These publications support educational improvement and strengthen BEC's role as a thought leader in school transformation and teacher development.

12. INSTITUTIONAL STRUCTURE

BEC is supported by a growing institutional architecture, including:

- governance and charter systems
- accreditation and inspection systems
- teacher development frameworks
- professional training institute
- advisory and education council structures
- conference and publication platforms

This enables BEC to operate as more than a consultancy – as a developing education standards institution.

13. FOUNDER PROFILE

Patrick Milo

PhD(c), MBA, BSc., NPQSL (DfE London 2018)

Patrick Milo is an education strategist, school leader, teacher development specialist, and founder of British Education Consultants.

He is the architect of the BEC education transformation frameworks and has developed structured systems supporting:

- school improvement
- teacher upskilling
- inspection readiness
- accreditation

- safeguarding in schools
- international curriculum transition

His work focuses on building stronger schools through professional systems, practical frameworks, and institutional accountability.

14. OUR COMMITMENT

British Education Consultants is committed to helping schools become places where:

- teachers teach effectively
 - leaders lead strategically
 - students learn safely and successfully
 - institutions grow in quality, confidence, and credibility
-
