Transforming Schools for Global Education

British Education Consultants (BEC)

Educational Transformation | Teacher Development | International Curriculum
Implementation

Lead Consultant:

Patrick Milo, PhD(c), MBA, BSc., NPQSL (DfE London 2018)

INTRODUCTION

Across the world, schools are transforming their education systems to align with internationally recognised curricula such as the **British National Curriculum, Cambridge International, and Pearson Edexcel.**

British Education Consultants (BEC) provides expert support for schools seeking to transition from local education systems to internationally aligned programmes.

Through a structured transformation process, BEC helps schools strengthen teaching quality, modernise learning environments, and prepare students for global academic opportunities.

WHY CONVERT TO AN INTERNATIONAL CURRICULUM?

Schools transitioning to international curricula benefit from several advantages.

Global Academic Recognition

International qualifications such as IGCSE and A Levels are recognised by universities worldwide.

Improved Teaching Quality

International curricula emphasise student-centred teaching, critical thinking, and inquiry-based learning.

Expanded Opportunities for Students

Students gain access to international higher education pathways.

Institutional Prestige

Schools offering international curricula often gain stronger reputation and increased demand from parents.

THE BEC SCHOOL CONVERSION MODEL

BEC supports schools through a structured transformation process using the **BEC360™ Whole School Transformation Framework**.

Phase 1 – Feasibility and Institutional Assessment

BEC conducts a comprehensive evaluation of the school to determine readiness for international curriculum transition.

This includes:

- institutional capacity assessment
- infrastructure evaluation
- teacher competency analysis
- market demand analysis

Phase 2 – Strategic School Transformation Plan

BEC works with school leadership to develop a clear roadmap for transformation.

The transformation plan includes:

- curriculum transition strategy
 - teacher professional development plan
 - infrastructure improvement recommendations
-

Phase 3 – Teacher Upskilling

Teachers receive professional development under the **TMRA™ Teacher Development Framework**.

Training focuses on:

- modern teaching strategies
 - international curriculum delivery
 - assessment and feedback practices
-

Phase 4 – Curriculum Implementation

BEC supports schools in aligning their curriculum with international standards.

This includes:

- development of schemes of work
 - lesson planning support
 - assessment system implementation
-

Phase 5 – Inspection Readiness and Accreditation

Schools receive institutional support through the **BIRA™ Inspection Readiness Framework** to ensure they meet recognised international quality standards.

BENEFITS OF WORKING WITH BEC

Schools partnering with BEC receive:

- expert guidance from experienced international educators
- structured teacher training programmes

- institutional transformation support
- inspection readiness preparation

BEC works closely with school leadership teams to ensure a smooth and successful transition.

WHO SHOULD CONSIDER SCHOOL CONVERSION?

BEC supports:

- private schools seeking international recognition
 - schools transitioning from local systems to British curriculum
 - new schools establishing international programmes
-

OUR COMMITMENT

British Education Consultants is committed to supporting schools in building strong educational environments where teachers excel, students thrive, and institutions achieve global standards.
